

EXPERIENCE & EXPERTISE PROVIDE A SUITABLE SOLUTION

Nugent has paid close attention to customer feedback and always responding to the demand of its client base has led to the design and manufacture of the new Spirit 20 horse trailer for smaller horses and ponies. This is the product for which Nugent required the help of MPM.

SUPPLIER:
MPM Bradford

CLIENT:
Nugent Trailers

PROJECT:
Design & manufacture of new Spirit 20 horse trailer RTM
Moulds and prototypes

RESULTS:
Innovative design & advice
offering bespoke solution

“The team at MPM are a fantastic find. Their skill base and knowledge is amazing, they have made our vision of a perfect horse box come to life. The quality of the end product is second to none”

Andy Colhoun,
**Operations Manager
Nugent Trailers**

Over the years customers have repeatedly asked for a horse trailer built in the same vein as that which Nugent has built its reputation on, with strength, quality and reliability. The challenge for the design engineers was to ensure the safety of the horse and owner was incorporated into the design together with strength and styling, whilst designing one of the finest horse trailers on the market, built to last. Combining advanced technology with the input of MPM's knowledge and experience with the finest of materials, Nugent has created a thoroughbred horse trailer that is full of innovation.

Andy Colhoun found MPM through a mutual contact who recommended them highly and have had their expectations exceeded by the work that MPM have completed. The innovative design required a supplier that had the expertise to provide a suitable solution, MPM were that supplier.

Nugent supplied MPM with a Solidworks CAD file of their innovative horse trailer and they were able to take this and the associated 3-D models and turn them into the finished moulds along with providing some sample products.

Making a project come to life

Planning and systems providing efficient solutions

Best communication we have ever experienced

“What has made the project even more stress free, is the way in which MPM have the project planning and systems in place that provides the best communication between supplier and client that we have ever seen. We recommend them to all our contacts without hesitation. In my 15 years of sourcing suitable composite suppliers, MPM are top of the list and continue to exceed our expectations.”
